Frederick, Oklahoma Officers at the Tillman County Sheriff's Department called the Fort Sill EOD team to remove an ordnance item from the back of a car. Reportedly the driver brought the round to the Sheriff's office after driving it around for days. The driver told police that he found the round in a ditch and did not think it was dangerous.

Fort Sill EOD confirmed the round was live before detonating it. The Sheriff's office issued a press release urging anyone who finds a military ordnance to leave it alone and call authorities.
