On this Memorial Day, UXOInfo.com would like to thank all of the men and woman who have served in our nation's great military. A special Thank You goes out to the men and woman of the active duty, as well as those who have served in the military EOD Program. EOD provides a valuable mission within the military in the protection of our country.

Please also remember those brave EOD Technicians who paid the ultimate price in their service to our country including the eight names recently added to the EOD Memorial.
