Pocatello, Idaho The Mountain Home Air Force base EOD was called to dispose of an unexploded round found in a metal container at a salvage yard. Workers discovered the live 20mm shell and notified the Pocatello Fire Department who set up a 100-foot perimeter around the container.

The 20mm round is the same type of shell used by Air Force F-15 combat jets, which are equipped with a 20mm Gatling cannon. It is unclear how UXO ended up in the metal container at the salvage yard. No injuries were reported.
