Related Categories: UXO Guest Author

Mr. Maarten Bosma has been working in the field of UXO clearance for nine years now as a consultant and a geophysics specialist. In his daily work he advises clients which detection technique is best for a certain locations and provides guidance in the field in the areas of UXO, archaeology, and utilities. He has performed surveys for trenches, tunnels, and other battlefields with Ground Penetrating Radar (GPR) and magnetometry. In 2012, he was the project leader of a feasibility study for the development of a GPR system for Vehicle Mounted IED detection for the Dutch Royal army.

Mr. Bosma is currently employed by Two-B Engineering B.V. in Utrecht, The Netherlands.
