The advertisement features a central image of the Recon-Pro AML-1000 metal detector, a rugged, olive-drab device with a large circular search coil and a control panel. To the left, a soldier in full combat gear is shown using the detector in a field. The top left corner displays the Garrett logo with an American flag and the text 'GARRETT METAL DETECTORS Proudly made in USA'. The top right corner features a circular badge that reads 'RECON-PRO GARRETT AML-1000'. Below the main detector image, there are two smaller images: an 'Optional UXO Search Head (38 x 50 cm)' and a 'CSI Pro-Pointer Secondary Debris Search Tool'. A list of features is provided in the center-right area.
