UXOInfo.com welcomes the Schonstedt Instrument Company as a Corporate Sponsor.

Schonstedt Instrument Company is the world's leading manufacturer of hand-held Fluxgate magnetometers for Unexploded Ordnance (UXO) and weapons detection. Schonstedt magnetic locators find ferrous metal targets used in landmines, buried ordnance, other munitions and explosives of concern (MEC), and hidden weapons. They have been tested and proven by the US military, private contractors and NGOs in military and humanitarian de-mining operations around the globe.

Selected high-profile users of Schonstedt magnetometers include:

- United Nations
- US Army Rapid Equipping Force
- US Marine Corps
- US Army Corps of Engineers
- EOD Technology
- Infopro Corporation
- Mines Advisory Group
- Parsons
- RONCO
- The Halo Trust
- USA Environmental
- UXB International
