UXOInfo.com recently received a donation of images taken in Kosovo between 1999-2000. The collection contains over 60 images of U.S. and eastern European munitions. Several of the images have been uploaded to the UXOInfo.com photo library already. UXOInfo.com will work to get the remaining images uploaded to the library over the next week.

If you have any images or documents to donate to the free on-line UXO document and photo library please email them to UXOInfo.com.
